

## Inflatable Airtrack (Portable Floating Rescue Platform Ramp)

### Sava Inflatable Rescue Walkway...

Rigid when inflated, rolls up compact when deflated.

Platform offers safety and stability on water, ice, mud, swamp sand or any other unstable terrain.

Link several units together to bridge greater distance

#### **Optional:**

Isolation Valves

Kevlar Reinforced Footprints

#### **Features:**

Multipurpose Capability

Easy Portability & Rapid Inflation

Rapid Deployment & Mobility

Rapid Extension 'Link-Up'

#### **Usage:**

Use as a Recovery Raft

Use as a Work Platform

Use for Mud Flat Recovery

Use for Ice Rescue

**Sava Inflatable Airtrack - Technical Data**

Type SAE	5 Meter (Inflated)	10 meter (Inflated)
Length (feet)	16.4'	32.8'

Height (inch)	4"	4"
Working Pressure (PSI)	7.25 PSI	7.25 PSI
Relief Valve (PSI)	7.25 PSI ± 10%	7.25 PSI ± 10%
Air Requirement (ft <sup>3</sup> )	56.5 ft <sup>3</sup>	113 ft <sup>3</sup>
Packed Size (inch)	45" x 17.7" x 13.7"	45" x 25.5" x 19.6"
Weight (Lbs)	60 Lbs	121 Lbs

# All Purpose Inflatable Stretcher

Sava API Inflatable Stretcher	
Call for special pricing \$	SAE
Inflated Size	90" x 28" x 13"
Folded Size	32" x 23" x 9"
Weight in Valise	31 lb
Carton Size	33" x 24" x 10"

Twin pontoon design of tough rubber coated nylon fabric with heavy-duty, reinforced pontoons, integral relief valve, and inflation/deflation port.

Other features include:

- Zip-up insulated survival cover (with window) quilted with Thinsulate® and inflating mattress
- Quick release body straps leg traction loops and leg securing loops
- 4 padded carrying handles
- 4 steel lifting rings e.g. helicopter
- 4 steel pulling rings e.g. hauling in-line
- Field Repair Kit
- Hand Pump (approx 3 min inflation time)
- Valise with carrying handles and 'D' rings for shoulder straps

OPTIONAL: Integral automatic compressed gas cylinder Inflation system

The all-purpose inflatable stretcher is a revolutionary piece of equipment providing:

- Safe, padded casualty handling
- Insulated water resistant nylon cover
- Compact & lightweight when deflated
- Fits into a backpack (total weight is 46 LBS)
- Inflate with hand pump
- Inflate with high pressure vessel

### **Functions:**

As a conventional stretcher, with padded grip handling facilities.

### **Lifts:**

By helicopter, out of difficult trouble spots. Certified to lift up to 770 Lbs (350 kg).

### **Hauls:**

In the horizontal or vertical plane and can be rigged to a 'Breeches Buoy' ship-to-shore transit system.

### **Floats:**

With excellent stability. Trials by land and sea rescue personnel prove beyond doubt its great potential as a SAVER OF LIFE

### **AT SEA:**

Can be used in flood situations, oil production platforms, ice rescue, cave and pothole rescue, police, underwater search units, etc

### **Toboggan:**

Over ice, snow, marsh grass, sand, mudflats, gravel and swamp. Extensive trials by Mountain Rescue Teams prove maximum mobility with minimum physical effort and limited use of manpower.
